Subject: Recommandation of Nico Verdonck

Dear All,

I know very well Nico since last year, when he was in Formula Le Mans Cup. I couldn't dodge him because he won the championship. He did a very good job throughout the season and scored loads of wins and podium finishes.

Thanks to his great season we offered him a test in our LMPI car the "ORECA 01". To be honest we were quite impressed by his test. He had a very good feedback with our Track Engineer and with our official driver Nicolas Lapierre. He adapted itself very quickly to this new environment and was pretty quick for a first test.

Throughout the day he has proven that after a good season in prototype he is definitely ready for a move up in the premier category LMPI.

I think Nico has a great future in motorsport and especially in sports car racing.

Kind regards,

Hugues de CHAUNAC
